

I live in Kansas City, Mo. There are a couple stations here that i find to have no interest in the people that live here in Kansas City. One station is 94.9 KCMO and the other is Jack FM i have called them on the phone and have made several request and the Dj's didn't seem like they was even happy working at their stations. I have also tried to contact them VIA Facebook with out a reply I had asked where the 50's and 60's went too on 94.9 KCMO's Facebook and they didn't even reply back to me instead they deleted my comment all together.. I think somebody needs to address this situation out before others have the same problem as me.. Thank you for Listening
