

My complaint is that the USA Network has started using GD in almost all of it's programs, Burn Notice, Covert Affairs, Suits, and Graceland. I got no response to previous complaints. Most Americans do not appreciate this type language and believe it or not most of us are not feeble minded and can express ourselves better than that. You bleep the f word and the s word, but seem to be encouraging taking God's name in vain. Something needs to be done to clean up the airwaves. Now, in the anything goes society, most of us don't appreciate it. Thanks, Sara Clark
