Request for Review

471 Application # 764119
486 Application # 860538

To Whom It May Concern,

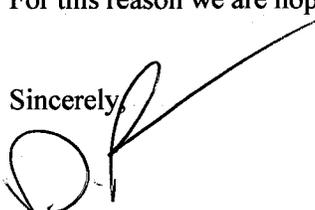

We were approved for funding but we overlooked the filing of the form 486. At the time after the approval we were in the process of moving our school including the administrative offices and the filing of the form was lost in the shuffle. We are aware that USAC routinely mails out 486 reminder letters, however we did not get our reminder letter only after the deadline. The reason being, because on all USAC correspondence that is mailed to our school it

is addressed to two addresses on one Line, like this. It was only by chance when we once went to our local US post office when we missing some mail that they gave us a pile of envelopes including the 486 reminder letter. The postal worker explained to us because it has 2 addresses on one line their system does not always recognizes the address. He explained the correct way is to have the mailing address on the top line and the other address on the next line.

For this reason we are hopeful that the service start date for 486 Application # 860540 be changed to 07/01/2010.

Sincerely,

David Kalisch, Director
