PETITION FOR SPECIAL RELIEF

Bright House Networks, LLC, (“Bright House Networks” or the “Company”), pursuant to Sections 76.7 and 76.907 of the Commission’s rules,¹ requests that the Commission find that it faces “effective competition” in the above-referenced franchise areas (the “Franchise Areas”).

The Communications Act of 1934, as amended (the “Act”), and the Commission’s rules provide that cable television rates may be regulated only in the absence of effective competition.² Cable operators are entitled to demonstrate that effective competition exists on a franchise-by-franchise basis.³ When a cable operator demonstrates that effective competition is present within a franchise area, cable rates in the affected area are no longer subject to regulation.⁴

¹ 47 C.F.R. §§ 76.7 and 76.907.

² 47 U.S.C. § 543(a)(2); 47 C.F.R. § 76.905(a).

³ 47 C.F.R. § 76.907.

⁴ See *Implementation of Sections of the Cable Television Consumer Protection and Competition Act of 1992, Rate Regulation*, 8 FCC Rcd. 5631, 5664-5665 (1993) (“Rate Order”).

Under the “competing provider” test set forth in Section 623(1)(1)(B) of the Act and Section 76.905(b)(2) of the Commission’s rules (the “Competing Provider Test”), a cable system will be deemed subject to effective competition if the franchise area is:

- (i) served by at least two unaffiliated multichannel video programming distributors, each of which offers comparable programming to at least 50 percent of the households in the franchise area; and
- (ii) the number of households subscribing to multichannel video programming other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area.⁵

As demonstrated below, the Competing Provider Test is satisfied in one of the two Franchise Areas – Lake View. Two unaffiliated MVPDs serve over 50 percent of the Franchise Area’s households with comparable programming and the aggregate penetration rate for all “competing providers” exceeds 15 percent in the Franchise Area. Accordingly, Bright House Networks requests that the Commission issue an order finding that Bright House Networks is subject to effective competition under the Competing Provider Test in the Lake View Franchise Area.

In addition, under the “low penetration” test set forth in Section 623(1)(1)(A) of the Act and Section 76.905(b)(1) of the Commission’s rules (the “Low Penetration Test”), a cable system serving less than 30 percent of the subscribers in a particular franchise area shall be deemed subject to effective competition and exempt from rate regulation in that community.⁶ Bright House Networks satisfies the Low Penetration Test in the Helena Franchise Area. As shown below, the reported penetration level for Bright House Networks is 4.34 percent in this Franchise Area. Accordingly, Bright House Networks requests that the Commission issue an

order finding that Bright House Networks is subject to effective competition in the Helena Franchise Area under the Low Penetration Test.

I. BRIGHT HOUSE NETWORKS SATISFIES THE COMPETING PROVIDER TEST IN ONE FRANCHISE AREA.

The two prongs of the Competing Provider Test are straightforward and objective. Both prongs of this test are satisfied in the Franchise Area.

A. More Than Two Unaffiliated MVPDs Offer Programming Comparable to Bright House Networks to Over 50 Percent of the Households in the Franchise Area.

The first prong of the Competing Provider Test requires that a franchise area must be served by “at least two unaffiliated multichannel video programming distributors...”⁷ This requirement is easily satisfied, because the two major direct broadcast satellite providers (DirecTV, Inc. and Dish Network, Corp.) (“DBS Providers”) are unaffiliated with Bright House Networks and “offer” service to more than 50 percent of the households in Bright House Networks’ Franchise Area.

Service of an MVPD will be deemed “offered” when it is both technically and actually available.⁸ The Commission has determined that DBS service is presumed to be “technically available” throughout the country due to its nationwide satellite footprint.⁹ Bright House Networks’ Franchise Area is well within the satellite footprint of DirecTV and Dish Network. Thus, both DirecTV and Dish Network are “technically available” in the Franchise Area.

⁷ 47 U.S.C. § 543(1)(1)(B)(i); 47 C.F.R. § 76.905(b)(2)(i). Section 602 of the Communications Act of 1934, as amended, defines “multichannel video programming distributors” to include cable operators, as well as DBS and MMDS providers. *See* 47 U.S.C. § 522(13).

⁸ *Rate Order* ¶ 29.

⁹ *See MediaOne of Georgia, Inc; Petition for Revocation of the Certification of Gwinnett County, Georgia*, 12 FCC Rcd. 19406, ¶ 5 n.16 (1997) (citing *Rate Order*, at 5660-5661).

DBS service is presumed to be “actually available” if households in a franchise area are made “reasonably aware” that the service is available.¹⁰ The Commission has stated that “a party may use evidence of penetration rates in the franchise area (the second prong of the competing provider test ...) coupled with the ubiquity of DBS services to show that consumers are reasonably aware of the availability of DBS service.”¹¹ The same reasoning applies here. DirecTV and Dish Network are among the largest MVPDs in the nation.¹² With approximately

¹¹ *Comcast Cable Communications, LLC Petition for Determination of Effective Competition in Various Michigan Communities*, 23 FCC Rcd. 9595, ¶ 5 (2008), citing *Mediacom Illinois LLC et al., Eleven Petitions for Determination of Effective Competition in Twenty-Two Local Franchise Areas in Illinois and Michigan*, 21 FCC Rcd. 1175 (2006) (“Comcast – Various Michigan Communities”). Thus, the Commission has not required the production of advertising to demonstrate that households in the franchise area are “reasonably aware” of the availability of DBS service. See *Bright House Networks, LLC Petition for Determination of Effective Competition (Lake Alfred and Dundee FL)*, 22 FCC Rcd. 4390, ¶ 6 (2007) (“Over more than ten years, we have made hundreds of findings that households in particular franchise areas are reasonably aware that they may purchase DBS services based on localized evidence. These accumulated showings amount to substantial evidence that households in all franchise areas are reasonably aware that they may purchase DBS services. In at least one earlier reported decision, we found households in a franchise area to be reasonably aware that they may purchase DBS service solely based on evidence of DBS's nationwide growth and local subscriptions, without reference to advertising or other promotion.”) (“*Bright House Networks – Florida*”).

¹² See *Annual Assessment of the Status of Competition in the Market for the Delivery of Video Programming (Fourteenth Order)*, 27 FCC Rcd. 8610, ¶ 31 (2012) (“14th Report”).

34 million subscribers nationwide,¹³ (comprising approximately 34 percent of all MVPD subscribers),¹⁴ extensive advertising, and the substantial DBS penetration figures in the Franchise Area, it is clear that consumers in the Franchise Area are “reasonably” aware of the availability of DBS competitors.¹⁵

The Competing Provider Test also requires that the programming offered by the competing provider must be “comparable” to the programming offered by the cable operator.¹⁶ The Commission’s rules define comparable programming as “at least 12 channels of video programming, including at least one channel of nonbroadcast service programming.”¹⁷ The Commission has repeatedly recognized that the DBS Providers offer comparable programming under the Commission’s Competing Provider Test.¹⁸ Each of the DBS Providers offer well over 100 video channels, most of which are non-broadcast services.¹⁹ And, as shown in the attached

¹⁹ See Channel Line-ups of DirecTV and Dish Network, attached hereto as Exhibit 1.

channel line-up, Bright House Networks' programming service offerings in the Franchise Area are substantially similar to the DBS Providers' programming services.²⁰

Based on the above facts, Bright House Networks has satisfied the first prong of the Competing Provider Test.

B. The Competing Providers Serve Greater Than 15 Percent of the Households In Bright House Networks' Franchise Area.

The second prong of the Competing Provider Test requires that the subscriber base of competing MVPDs, other than the largest MVPD, exceeds 15 percent of franchise area households.

Because DBS Providers track their subscribers according to the ZIP codes where each subscriber resides (rather than by political jurisdiction), Bright House Networks relied on a two-step process to determine the number of DBS subscribers within the Franchise Area. To determine the relevant ZIP+4 codes for the Franchise Area, Bright House Networks first contacted SNL Kagan ("SNL," formerly known as "Media Business Corp."). SNL has developed a process to accurately identify the ZIP+4 codes that correspond with the political boundaries of a particular community. This process utilizes enhanced mapping software that correlates ZIP+4 codes with political boundaries. With this software, SNL was able to identify the ZIP+4 codes that lie within the Franchise Area.²¹ The Commission has previously

²⁰ See Bright House Channel Line-up, attached hereto as Exhibit 2.

²¹ See Letter from SNL (explaining ZIP+4 methodology), attached hereto as Exhibit 3.

accepted ZIP+4 codes as “reasonable and sufficiently reliable for purposes of determining the presence of effective competition,”²² and stated its preference for this approach.²³

Bright House Networks next provided the relevant ZIP+4 codes for the Franchise Area to the Satellite Broadcasting and Communication Association (“SBCA”). SBCA is the national trade association representing the two DBS Providers, as well as other satellite service providers, and it has assumed the responsibility for compiling subscribership data and responding to data requests from cable operators and franchising authorities engaged in effective competition proceedings. The DBS subscriber number reported in the attached Effective Competition Tracking Report (“ECTR”) from SBCA reflects the total number of DBS subscribers within the individual ZIP+4 codes associated with the Franchise Area.²⁴

To determine whether DBS subscribership exceeds the statutorily mandated 15 percent threshold in the Franchise Area, Bright House Networks compared the competing providers’ subscribership to the most recent U.S. Census occupied household unit figures for the community.²⁵ This comparison yields a penetration rate of 65.38 percent for DBS Providers in the Lake View Franchise Area.

²² *Cable One, Inc. Petition for Determination of Effective Competition in Pocatello, Idaho*, 18 FCC Rcd. 12792, ¶ 8 (2003) (quoting *Falcon Cable Systems II, a California Limited Partnership, d/b/a Charter Communications Petition for Determination of Effective Competition in Twelve Oregon Cities*, 17 FCC Rcd. 4648 (2002)).

²³ See Public Notice, “Commission Announces New Standards for Showings of Effective Competition For Cable Service,” 23 FCC Rcd. 12067 (2008); Public Notice, “Commission Clarifies Standards for Evidence of Competing Provider Effective Competition for Cable Service,” 24 FCC Rcd. 8198 (2009).

²⁴ See Exhibit 4 (providing total ZIP+4-based DBS subscribership for the Franchise Area, as well as all ZIP+4 data relied on in the Petition).

²⁵ See Exhibit 5.

As detailed in Exhibit 6, the subscriber penetration rate for the competing DBS Providers in the Franchise Area exceeds the 15 percent threshold required under Section 623(1)(1)(B) of the Act. Accordingly, Bright House Networks meets the second prong of the Competing Provider Test in the Franchise Area.²⁶

II. BRIGHT HOUSE NETWORKS SATISFIES THE LOW PENETRATION TEST IN ONE FRANCHISE AREA

In addition to satisfying the Competing Provider Test above, Bright House Networks is entitled to an effective competition determination in the Helena Franchise Area, because the Company serves less than 30 percent of the local households in this particular Franchise Area.

Section 623(1)(1)(A) of the Act provides that a cable system will be deemed subject to effective competition if “fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system.”²⁷ The measurement of subscribership under this test “will be based on the subscribership of the particular cable system in question, and not an aggregation of the subscriberships of all cable systems and competitors in the franchise area.”²⁸

To determine whether Bright House Networks’ subscribership is less than 30 percent in this Franchise Area, Bright House Networks compared the Company’s subscribership to the U.S.

²⁶ Bright House Networks has confirmed that it serves in excess of 15 percent of the households in the Lake View Franchise Area, while DBS Providers serve in excess of 65 percent. *See* Declaration of Thomas M. Wilson, attached hereto as Exhibit 7. The Commission has recognized that where “the subscribership penetration for both [the cable operator] and the aggregate [competing provider] information each exceed 15 percent in the franchise area, the second prong of the competing provider test is satisfied.” *Charter Communications – Seven Local Franchise Areas In Missouri*, 21 FCC Rcd. 1208, ¶ 5 (2006). Thus, it is immaterial in this Franchise Area which MVPD is the largest, because both DBS Providers (as shown above) and cable readily pass the 15 percent threshold.

Census household figures for the community.²⁹ This comparison yields a penetration rate of 4.34 percent for Bright House Networks in the Helena Franchise Area.³⁰

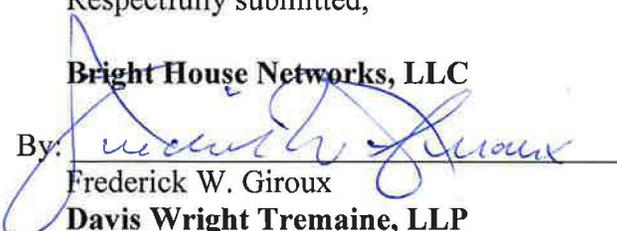

Bright House Networks has demonstrated that fewer than 30 percent of the households in this Franchise Area subscribe to the Company's cable service. Accordingly, Bright House Networks has satisfied the criteria for establishing effective competition under 47 C.F.R. § 76.905(b)(1) for the Helena Franchise Area.

CONCLUSION

Bright House Networks' cable system is subject to effective competition in one Franchise Areas under the Competing Provider Test. The Company is subject to effective competition in one Franchise Area under the Low Penetration Test. Based on the evidence presented herein, Bright House Networks respectfully requests that the Media Bureau issue an order acknowledging the presence of effective competition in each of the two Alabama Franchise Areas as of the filing date of this Petition.

To Whom It May Concern:

SNL Kagan utilizes a multi-step process to accurately identify cable client franchise areas and associated ZIP and ZIP+4 Codes. (A ZIP+4 Code includes the five digits of the United States Postal Service ZIP Code, a hyphen, and four more digits that determine a more precise location than the ZIP Code.)

This methodology was developed to address the potential shortcomings in utilizing 5-digit ZIP Code data for "Effective Competition" petitions. The basic methodology has been in place for several years and has been used successfully in many Effective Competition cases at the FCC.

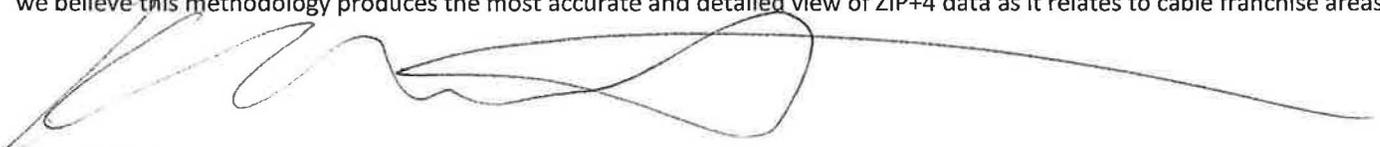

Because ZIP Codes and municipal boundaries are created and managed by different government authorities, the boundaries of ZIP Codes and municipal boundaries often overlap. ZIP Codes frequently span between and beyond municipal boundaries. ZIP+4 Codes, however, usually reside in one and only one municipality. SNL Kagan uses Place, Minor Civil Division (MCD), and County boundaries from Dynamap® a division of Pitney Bowes Business Insight, to determine municipal boundaries. SNL Kagan uses the Dynamap® ZIP+4 Centroids database, which contains ZIP+4 centroid correspondence for virtually all deliverable ZIP+4s, to identify ZIP+4 Codes within municipal boundaries, among the over 60 million ZIP+4s in all 50 states, DC, and Puerto Rico, based on current data from the USPS and the U.S. Bureau of the Census, and the Tele Atlas master street database.

SNL Kagan then utilizes its ZIP+4 Code mapping to enable our clients to obtain proper "Direct-to-Home" (DTH) subscriber counts for their respective franchise areas by tracking DTH subscribers at the ZIP+4 Code level. (Where SNL Kagan determines that a ZIP Code falls entirely within a franchise area, however, it is unnecessary to identify DTH subscribers at the ZIP+4 Code level for that 5-digit ZIP Code. In these instances, SNL Kagan identifies such 5-digit ZIP Codes and, accordingly, DTH subscribers are identified by the 5-digit ZIP code only.)

Only ZIP+4 Codes that meet specific criteria are included in this report. The following criteria must be met:

- The centroid of the ZIP+4 Code is within the franchise area; and
- The USPS ZIP+4 Record Type (from Dynamap® ZIP+4 Centroids) is either H- high rise or S – street.

Our methodology has been used by many multiple system operators (MSOs) as part of their Effective Competition relief efforts, and we believe this methodology produces the most accurate and detailed view of ZIP+4 data as it relates to cable franchise areas.
