AFFIDAVIT OF Kevin Mottus

State of CA]

LA_ County]

I, Kevin Mottus, attest that my statements are true to the best of my knowledge.

Comment round for ET Docket No. 03-137 and ET Docket No. 013-84.

1. My name is Kevin Mottus. My address is 11041 Santa Monica Blvd. #627 Los Angeles, CA 90025.
2. I am a SOCIAL WORKER. (Note: Additional studies and information attached from previous entry of this comment due to size limitations comment has been repeated).

The FCC needs to stop denying the existence of non-thermal biological effects from Radio Frequency Radiation emitted and used by all wireless devices. This agent is inherently a harmful agent. FCC guideline need to be completely revised too reflect the inherently harmful nature of RF radiation emitted by all wireless devices. See the attached sworn declarations from experts David Carpenter MD, Lloyd Morgan, Magda Havas Phd, Barry Trower, Curtis Bennet from a recent Federal Court case in Portland, Oregon suing the Portland Unified School District to turn off their WiFi due to the inherently harmful nature of WiFi and to protect the health and well being of the child in question and all children in the district. Please see the sworn declarations attached and make them part of the official record.

According to these sworn declarations, Dr. David Carpenter MD is quoted as stating that "Decades of scientific study have produced substantial evidence that EMF and RF/MW radiation may be considered neurotoxic, carcinogenic, and genotoxic" (item 17 page 5). Further when speaking of WiFi in the classroom specifically he states that "Human studies of comparable RF/MW radiation parameters show changes in brain function including memory loss, retarded learning, performance impairment in children, headaches and neurodegenerative conditions, melatonin suppression and sleep disorders, fatigue, hormonal imbalances, immune dysregulation such as allergic and inflammatory responses, cardiac and blood pressure problems, genotoxic effects like miscarriage, cancers such as childhood leukemia, childhood and adult brain tumors, and more" (item 14 page 4).

Due to the inherently carcinogenic and harmful nature of Radio Frequency radiation, the FCC needs to act immediately to ban completely all forms of WiFi and similar

microwave emitting devices such as wireless internet routers, wireless video game consoles, and a myriad of other forms of microwave transmitters from all settings but especially from schools, all workplaces, and homes. As it is now, people are being involuntarily exposed to this harmful agent in a most complete, comprehensive, and efficient manner against their will and without proper knowledge of the possible harmful effects or consent to this harmful exposure.

The FCC is allowing our population in mass to be exposed to a known World Health Organization Class 2B Carcinogen in the same class as lead. Our government certainly would not allow our homes, workplaces, and retail locations to be painted with lead paint much less be spraying that lead paint continuously all over its human occupants but that is what we are essentially doing by allowing WiFi and other forms of microtransmitters to continue to be used in our homes, schools, workplaces and retail locations.

It is unconscionable how the FCC continues to ignore long standing and established evidence that WiFi and the RF radiation it emits is a biologically harmful agent. Please consider as evidence available to the public on line and enter into the record all depositions given as part of the AHM and David Morrison vs Portland Public Schools Civil Action No. 3:11-cv-00739-MO. Please also consider as evidence and enter into the official record the History of Health Effects from RF and microwave radiation from the Archives of Zory Glaser documenting health effects of RF exposure seen by the Navy available at magdahavas.com on line.

It is even more unconscionable that the FCC is actively promoting the unhealthy exposure of all American to RF radiation by promoting the use and expanded use of WiFi in all settings of our life. We are literally being slowly microwaved 24 hours a day to the detriment of our health. This must stop immediately; the FCC must take corrective action to rid all Americans of this unhealthy exposure. Just because we cannot see, feel or taste this agent does not mean it is not harming us on a cellular level because it is.

The FCC guidelines governing RF exposure must reflect Radio Frequency radiation's inherently harmful nature and be lowered 1 million times to .0001uW/cm² as recommended and defended by the recent update of the BioInitiative Report to avoid known harmful biological effects above this level. Please see the entire BioInitiative Report at bioinitiative.org and enter it into the official record. FCC guidelines must immediately acknowledge and exposure levels of RF radiation permitted be reduced to take into account non-thermal biological effects of RF radiation. They need to be adjusted significantly downward to account for special populations such as children, pregnant women and the elderly. The exposure level of the guidelines must be additionally lowered to account for long term exposures inherent to cell tower admissions and other continuous exposures of our population to RF radiation.

The FCC needs to stop immediately facilitating, encouraging, and supporting the reckless, aggressive and pervasive expansion of WiFi and other wireless exposures due to the involuntary exposure of our population to RF radiation which is inherently biological harmful to humans. By exposing us to WiFi in our homes, workplaces, retail locations

and in other forms like smart meters and whole communities with WiMax, you are making people sick with Electrosensitivity which has been recognized as a medical condition by other countries. You are giving people cancer; see sworn declarations discussing the association between Leukemia and other cancers and EMF or RF radiation levels similar to that used by WiFi.

The FCC needs to immediately inform each and every Americans of the inherently harmful nature of RF radiation as a biotoxic agent so they can take corrective action to protect their health and the health of their families, coworkers and communities. People are getting electrosensitive and I can bring them to the FCC to testify. People are getting cancer due to heavy long term exposure to cell phones and other RF radiating devices. I can bring them and/or their surviving family members to the FCC to testify. Without adequate safety standards in place, we are the experiment-the research as you allow mass microwaving of our population with RF radiation. The FCC is currently allowing wireless companies and manufacturers of wireless devices to experiment with our health and our lives. People are getting sick. You are disabling our work force; you are killing our workforce with cancer.

The FCC needs to immediately post every scientific article ever published regarding the biological effects of all EMF's but especially RadioFrequency Radiation. The FCC needs to immediately make available on their website all of the warnings from every country in the world regarding the dangers of RF radiation to humans. Because almost every American is effected by RF radiation exposure and relatively few visit you site, you need to immediately warn each and every American of the science available showing non-thermal effects from RF radiation used by WiFi and all other wireless devices. Instead of actively expanding RF exposure, the FCC needs to actively reach out to the medical field and inform them of the symptoms of Electrosensitivity and cancers prone to be associated with RF radiation exposure, to aid with diagnosis and treatment of their patients and actively collect and synthesize information regarding observed health effects of RF radiation on our population. As it is now no one is actively communicating with our medical professionals or collecting necessary data to track Electrosensitivity in our population or track the increase in cancer amongst heavy wireless users (3-8 hours a day) and/or those highly RF radiation exposed. To ignore this responsibility or place it on others while actively promoting the spread and mass exposure of this harmful agent is irresponsible and willfully destructive to our population. Finally, the FCC guidelines governing RF radiation emissions need to immediately be lowered 1 million times to provide a protective exposure level that avoids known non-thermal biological effects as articulated, supported and defended in the Bioinitiative Report. For the FCC to continue to deny the evidence indicating the existence of non-thermal biological effects of RF is irresponsible, malicious and criminal due to the harm and death that it can cause.
