

DMC broadcasting in Taos New Mexico hopes to be operating a fifth station in Taos. Taos has two other stations, owned by another party, and do little news other than some rip and read national and a few stories from our local paper and the Albuquerque Journal. Its focus is music, music.

DMC has local programming that focuses on local issues. The Mayor of Taos owns the four stations and uses them to distort and control the reporting on local issues. Some of his announcers, including his brother Daniel, are clear racists. I'm a political activist in Taos, and have basically been banned by the radio stations. I've been slandered by these stations. Until very recently, our only newspaper was very mayor friendly, and may well return to that position. No free speech or exchange of ideas in this market.

The mayor has a station in Angel Fire, New Mexico, and does zero reporting on their local issues. The public will be further damaged in Taos if DMC is allowed another station to spread their message of racism and political coverups. I urge the rejection of this license.
