

Please support discounts for school email and websites. As a small rural public k-12 district we count on discounts to bring reliable service to our students and families. Our paid services for websites offer us backup, tech support, training as needed and privacy. It is created with schools in mind and gives us a professional relevant look as we need. Also, it is CPA compliant with no advertising. All that is worth it for our kids. We could not afford to lose the safety. But we need help because we wouldn't be able to afford full price. The discounts help our kids. Thank you.
