

We support the FCC in their effort to have and set rules for the internet and the case Net Neutrality, the case Verizon v. F.C.C. now in United States Court of Appeals for the District of Columbia Circuit. There has to be a limit to their usage of the internet, their installed hardware, etc., that will benefit every one; that's what the internet is all about, everyone. Not just the carriers and the "well-to-be" subscribing entities. Thanks for your good work and standing up for the countries' best.
