**AFFIDAVIT OF Judi Hangartner**

State of Washington  
Clallam County

I, Judi Hangartner, attest that my statements are true to the best of my knowledge.

**Comment** round for FCC ET Docket No. 013-84 and ET Docket No. 03-137

1. My name is Judi Hangartner . My address is 1815 E. 4th Street Port Angeles, WA 98362
2. I am retired from a nursing career.
3. Smart Meters RF transmissions have been reported to interfere with RF emitters that control medical devices, such as pacemakers, apnea monitors, electrically powered wheelchairs, RF insulin pumps...etc.... This condition is called radiofrequency interference (RFI) and can have consequences that range from inconvenience to serious injuries and death.
4. Health, environmental, privacy, and billing concerns have all been voiced over the installation of these smart meters. The City of Port Angeles says they are following the FCC guidelines.
5. The FCC guidelines are based on thermal effects to human tissue (heating). The thermal heating effect of radio frequency (RF) radiation on humans has been studied and is well understood. Non-thermal effects were not taken into consideration for the basis of these regulations. Scientific studies have shown that non-thermal effects due to cumulative or prolonged exposure to lower levels of RF emissions can cause adverse health effects.. The BioInitiative Report provides a good summary on the studies of non-thermal adverse health effects detected
6. The Federal Communications Commission (FCC) has failed to set safety standards that take into consideration safety for the disabled population and those with medical conditions adversely affected by non-ionizing radiation at far lower levels than that of the general population.

Respectfully,

Judi Hangartner  
1815 E. 4th Street  
Port Angeles, WA 98362
