

GOAL Academy is an online high school in the state of Colorado. The majority of our communications are presented through our website and email domain (both services are closely tied in with each other with archiving and management). It is very important for us that E-rate continues to include website and email services as E-rate applicable for us to continue to serve the needs of our students and staff. We have attempted to use free and less expensive options in the past but none were adequate for how we operate and the options that do work were not within our operating budget. Without E-rate for our web and email services, we would be lacking in our quality of support. Feel free to contact me if you have any questions.

Thank you!
