**Re: *Connect America Fund*, WC Docket No. 10-90
2013 Connect America Fund Phase I Challenge Process**

Dear Ms. Dortch:

Fidelity Communications Company, on behalf of its operating subsidiaries that provide cable television services (collectively, "Fidelity"), is challenging various price cap carriers' requests to receive CAF Phase 1 support to provide broadband service to locations within the enclosed list of census blocks on the basis that Fidelity has existing plant to provide and does offer fixed Internet access service at speeds greater than 3 Mbps downstream and 768 kbps upstream within such census blocks, as documented in this filing.

In support of this challenge, Fidelity provides the following attachments:

- Attachment A: List of the census blocks for which price cap carriers are requesting CAF funding, but in which Fidelity has existing plant to provide and does in fact offer fixed Internet access at the requisite speeds along with the number of customers served (both current and past) and presently serviceable by Fidelity in each such census block. Maps showing placement of Fidelity's cable plant are provided for those census blocks in which Fidelity has plant but no present or past customers.
- Attachment B: Signed certification from Mark Head, Vice President of Operations, that Fidelity has existing plant to provide, and presently offers and intends to continue to offer, Internet access service in the designated census blocks at speeds greater than 3 Mbps downstream and 768 kbps upstream along with a Declaration by Jarrod Head, Director of Engineering, that describes the manner in which Fidelity conducted its analysis to provide evidence that it has facilities and is providing service within these census blocks.
- Attachment C: Redacted copies of customer bills for the designated census blocks at issue.

Please feel free to contact me at (573) 468-1218 if you have any questions or need any more information.

Sincerely,

Carla Cooper, Director of Regulatory Accounting
Fidelity Communications Co. and its operating subsidiaries
64 N. Clark St.
Sullivan, MO 63080

* - For those census blocks identified above in which Fidelity currently has no customers, Fidelity does have existing plant from which to serve customers, has (except as noted) confirmed one or more serviceable addresses, and is presently offering service, including internet access service at the requisite speed. Attached are maps showing placement of Fidelity's cable plant for these census blocks in which Fidelity has no customers but has plant from which to serve. Fidelity is willing to supplement this filing with confidential maps showing its facilities in those locations where it has customers upon entry of an appropriate protective order or other mechanism for confidential treatment of CPNI and competitively-sensitive information.

** - This census block appears to consist entirely of an open pit mine or quarry, with no serviceable areas.

*** - Fidelity has plant available in this census block, but based on a review of publicly-available surface maps, there do not appear to be any serviceable customers (e.g., no residential or business structures).

CERTIFICATION OF MARK HEAD

1. My name is Mark Head and I am the Vice President of Operations for Fidelity Communications Co. and its operating subsidiaries (collectively, "Fidelity"), which operates cable television systems in the following census blocks: 290910905003003, 290910905003008, 290910905003088, 290910907004024, 290910907004028, 290910907004047, 290910907004049, 290910908002067, 051250104072071, 051250105031033, 051250105031034, 051250105032037, 051250105032038, 051250105032118, 051250105033027, 051250105121021, 051250105121022, 220779522002008, 220779522002027, 220779522002043 and 220779522002044.
2. I hereby verify that Fidelity offers 3 Mbps/768 kbps or greater Internet access service to customers within each such census block. Fidelity will continue offering service to such customers and any other business and residences that may be built there pursuant to our franchise agreements or other legal authorizations.
3. I declare under penalty of perjury that the facts contained herein and within the related Attachments are true and correct to the best of my knowledge, information, and belief formed after reasonable inquiry, that this challenge is well-grounded in fact, that it is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law, and that it is not interposed for any improper purpose.

DECLARATION OF JARROD HEAD

1. My name is Jarrod Head and I am the Director of Engineering of Fidelity Communications Co. and its operating subsidiaries (collectively, "Fidelity").
2. My responsibilities include, among other things, managing engineering and construction activities for Fidelity's affiliated cable television system operations.
3. The purpose of this Declaration is to describe the manner in which Fidelity has prepared documentation to provide evidence that it is offering fixed Internet access service at 3 Mbps/768 kbps or greater to customers within the following census blocks: 290910905003003, 290910905003008, 290910905003088, 290910907004024, 290910907004028, 290910907004047, 290910907004049, 290910908002067, 051250104072071, 051250105031033, 051250105031034, 051250105032037, 051250105032038, 051250105032118, 051250105033027, 051250105121021, 051250105121022, 220779522002008, 220779522002027, 220779522002043 and 220779522002044. This Declaration serves to augment, not substitute for, the Fidelity officer certification also submitted as part of this filing.
4. Fidelity's analysis that is the subject of my Declaration began with a review of Fidelity's network facilities, equipment and service addresses located within the aforementioned census blocks.
5. Specifically, Fidelity's billing data was compared with the network records detailing the speeds that are being offered within these census blocks to the service addresses along with the type of cable modem that is currently available for servicing these addresses, e.g., DOCSIS 3.0.
6. Fidelity has existing plant located in each of the above-referenced census blocks that is capable of providing 3 Mbps/768 kbps or greater Internet service to customers located therein, and (except as noted in the attached spreadsheet) has identified one or more service addresses in each such census block. Moreover, Fidelity currently offers 3 Mbps/768 kbps or greater Internet service to customers in each of the above-referenced census blocks. A summary of the number of addresses serviced and serviceable in each census block, as well as the available speeds is contained in the spreadsheet enclosed herewith, which is hereby incorporated by reference into this Declaration. Fidelity meets the threshold requirement of having facilities and offering Internet access service at the requisite speed in each such area.
7. Also enclosed for each census bureau at issue (in which Fidelity has provided service to a customer) is a redacted bill to a customer located in such areas designated.

8. Attached are maps showing placement of Fidelity's cable plant for those census blocks in which Fidelity has no customers but has plant from which to serve. Fidelity is willing to supplement this filing with confidential maps showing its facilities in those locations where it has customers upon entry of an appropriate protective order or other mechanism for confidential treatment of CPNI and competitively-sensitive information.
9. I declare under penalty of perjury that the facts contained herein and within the related Attachments are true and correct to the best of my knowledge, information, and belief formed after reasonable inquiry, that this challenge is well-grounded in fact, that it is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law, and that it is not interposed for any improper purpose.

Jarrod Head
Director of Engineering
Fidelity Communications Co.
64 N. Clark St.
Sullivan, MO 63080
Tel.: (573) 468-1047

Dated: September 27, 2013

ATTACHMENT C

The following are copies of current customer bills for the designated census blocks at issue in this challenge. The remaining customer bills can be filed if necessary. From a CPNI basis, Fidelity has redacted the customer's name, service address, billing address, and amount paid for the services. For identification purposes, the census block number has been hand-written on the customer bill. If the actual service address rather than the census block number is needed, Fidelity will re-file these bills pursuant to an appropriate protective order or other procedure for confidential treatment.

IMPORTANT MESSAGES

We hope you enjoy your new Fidelity bill design!

There are a few VERY important things you need to know.

1) You will have a new Account Number and a new address where you will send your bill payment. The new address is:

Fidelity Communications Company
PO Box 2050
Omaha, NE 68103-2050

If you pay your bill online through your bank, you will need to go to your online banking web site and change your Account Number and the address of where the payment will be mailed.

If you hand write your envelope for bill payment, you will need to make sure you send it to the NEW address.

2) There is a NEW online bill payment web site.

Just go to www.FidelityCommunications.com and click on "Pay Bill" under "Tools" in the right side bar.

On the next page, choose your area, and it will take you to the new bill payment site. Then be sure to bookmark this site for future payments!

3) You probably have a new payment due date. If so, the pro-rated charges or credits you see are for the days that your payment has moved.

Give us a call if you have questions!
