

own broadband service coverage data. PTCI has found that the current version of the NBM understates broadband coverage in Ochiltree County, Texas. PTCI offers fixed terrestrial broadband service throughout nearly all of Ochiltree County at speeds of up to 12 Mbps downstream and 1 Mbps upstream. PTCI has existing broadband subscribers throughout much of Ochiltree County, including the town of Perryton, and the unincorporated towns of Farnsworth and Waka. Attached hereto as evidence of PTCI's existing fixed terrestrial broadband service in Ochiltree County is a declaration from PTCI's CEO (Exhibit B) verifying PTCI provides 3 Mbps/768 kbps service in the 30 census blocks. Also attached, by way of example, is a redacted copy of a recent billing record from a subscriber located in the community of Farnsworth, Texas (Exhibit C). Billing records for subscribers located in other census blocks are available upon request.

Based on the evidence provided herein, the 30 census blocks in Ochiltree County, Texas identified by Windstream as unserved are in fact served by PTCI, and therefore, should be removed from the list of areas where Windstream or any other carrier may use CAF Phase I support.

Respectfully submitted,

By: /s/ Caressa D. Bennet
