

CNemoGlobal is an NGO environmental watchdog, recognised by UNESCO.

NBC Sports recently aired a sickening display of the ruthless killing of an African elephant on its series "Under Wild Skies" by a boorish game hunter, sponsored by the NRA. This is NOT in line with the Clinton Global Initiative to combat illegal wildlife trade; it demonstrates a disturbing and depraved indifference to animal suffering and American humane values, exacerbated by NBC's nod to the NRA's agenda. Legal or not, the brutal hunt shown in the program has offended thousands of American citizens and public outcry is growing. We urge the FCC to investigate NBC Sports's affiliation with the NRA and discontinue this type of blood-thirsty programming. Thank you.
