

To Whom It May Concern:

We have cancelled our Dish Network TV service several years ago because they would not give us PBS from New Hampshire, but gave us Maine instead. We checked with the local cable service, but they, too, would only give us the Maine channel. We live in NH, and the NH PBS channel does have DVS. While Maine was a pioneer in DVS, when it was beta testing the system, they no longer carry it. When I did have it I enjoyed NOVA, MYSTERY, and other PBS programming with DVS.

The Regal movie theater in Concord, NH, provides DVS on the movies it shows, and my wife drove me 50 miles so I could enjoy it.
