

I'm Writing to you to inform you of a personal problem i had with Cumulus Media in the Kansas City, Mo area. One of our Local stations here on FM 94.9 FM KCMO plays a general Rock N Roll. They use to play more Oldies and had more of a 60's and 70's selection. Since then it has changed.. I had called up the Local Cumulus Offices here in the Kansas City, Kansas area and i was wanting to speak with the General Manager of the station (Mark Sullivan) on 94.9 KCMO to ask if they can possibly play more 60's or Oldies on 94.9 when I had called the Cumulus Office here no sooner did the GM answer the phone and when i started to ask about can you play more 60's Oldies.. He hung up on me.. I was only asking if they can play more Oldies and the guy hung up on me. I miss the good old days of radio stations when the people actually listened to you! You can guarantee that i am no longer a fan and im telling my friends and family to not listen to that station any longer.. Please do something about the Cumulus division here in the Kansas City Metro area..

Thank you,

Judy Rippy
