To Whom It May Concern

RE: Bill# BRF R10R029504/DEMAND LETTER

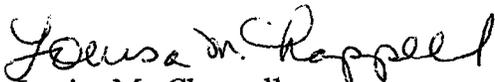

After a thorough search for submittal verification of the above demand for payment for the 2010 Regulatory Fee, I find none, and after a thorough search of my memory, I now remember this is the period (July- October 2010) that my 93 year old Mother took ill, having fell and broken a hip. I took a leave of absence from my job to care for my Mother who passed October 7, 2010.

In my position as the responsible person in charge for paying fees for the #29504 Facility, I do take and accept full responsibility for forgetting to submit payment, however, I believe that only a person who has never been down the path I took in the Fall of 2010, would not understand.

In view of the above and the fact that prior to 2010, we had always submitted Regulatory Fees on a timely fashion, I am asking the Commission ~~penalties and late fees~~ and allow us to pay the 2010 fee of \$500 or allow a payment plan for the full amount without further late fees. This license has since then been cancelled (July 2011).

Please, acknowledge as to what direction you will allows us to take.

Sincerely,

Louisa M. Chappell
