Pierce Telephone Company, Inc.
Ability to Remain Functional in Emergency Situations

1. Pierce Telephone Company, Inc. (PTC) has been providing high quality service in Nebraska since 1955. This includes operating in adverse conditions including blizzards, ice storms, thunderstorms, tornadoes and during prolonged power outages. PTC's management team, plant supervisors, plant technicians and customer service representatives have the training, experience and equipment necessary to respond to, manage and operate in emergency situations.
2. Pierce Telephone Company, Inc. follows applicable Rural Utilities Service (RUS) Telecommunications program practices and guidelines including the Telecommunications Engineering and Construction Manual (TE&CM) and other industry standards available to small telecommunications carriers. Pierce Telephone Company, Inc. also meets the requirements of the Nebraska Public Service Commission (NPSC) as applied to local exchange service.
3. Back-Up Power
 - 3.1. Central Office
 - 3.1.1. Pierce Telephone Company, Inc. maintains storage batteries designed to provide a minimum reserve capacity consistent with RUS TE&CM 1751E-302, Power Requirements for Digital Central Office Equipment. 1751E-302 paragraph 2.3.4 recommends a minimum reserve capacity of 8 hours, or 3 hours if the central office is equipped with an emergency standby generator. This is consistent with Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, paragraph 002.05 Emergency Operations and Power.
 - 3.1.2. Pierce Telephone Company, Inc. maintains a dedicated standby generator fueled with a 50 gallon reserve supply of diesel fuel at the Pierce central office and a standby generator fueled with a 500 gallon reserve supply of liquid propane gas (LPG) at the Hoskins central office. The standby units are equipped with an automatic transfer switch so that in the event of an interruption of the commercial electric power lasting more than a few minutes, the standby generator starts automatically and provides electrical power to the central office equipment, air conditioning and building lighting. The automatic transfer switch also exercises the standby unit periodically and an alarm indication is sent if the standby generator does not start so that telecommunications personnel can perform proactive maintenance.

3.2. Remote Equipment Cabinets

3.2.1. Where electronic equipment in cabinets located remotely from the central office, is used to provide service, the cabinets are equipped with batteries designed to operate for a minimum of eight hours without commercial electrical power. In addition, Pierce Telephone Company, Inc. maintains portable AC standby generators for use in the event of prolonged commercial power interruptions and the cabinets are equipped with external receptacles to facilitate connection to portable generators.

4. Rerouting Traffic around Damaged Facilities

4.1. In the event of damage to cable facilities owned by Pierce Telephone Company, Inc., our maintenance personnel would restore service using emergency splice kits kept on hand for these types of service disruptions. If the damaged facilities are not owned by Pierce Telephone Company, Inc. we would work with the carrier directly affected to identify the source of disruption and the estimated amount of time before service is restored.

4.2. Pierce Telephone Company, Inc. currently has diverse fiber routes. One route supports toll calling and the other route supports Internet service. In the event of an extended outage, contact would be made with the other service provider to provision temporary alternate routes supporting originating and terminating toll calls. Emphasis would first be placed on establishing connections to nearby PSAP, law-enforcement and emergency services.

5. Managing Traffic Spikes

5.1. Pierce Telephone Company, Inc. meets Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, paragraph 002.12 Dial Service Objectives for sufficient central office capacity and equipment during the "...average busy hour-busy season..."

5.2. Pierce Telephone Company, Inc. follows applicable RUS practices 522 and 322 when specifying, administrating, and assigning facilities within its control (as opposed to facilities ordered by connecting interexchange carriers).

5.3. The Pierce and Hoskins central office switches are Genband DMS-10's operating at the 602.20 software release. The Pierce DMS-10 is equipped with 1175 access lines and the Hoskins DMS-10 is equipped with 302 access lines. The DMS-10's are designed to support up to 12,000 access lines by adding line and trunk interface equipment and network equipment only. In its current configuration the DMS-10's have additional capacity over and above the minimums specified to meet NPSC and RUS guidelines.

5.4. When traffic volumes greatly exceed specified criteria and additional capacity of the switch or connecting facilities, the DMS-10 continues to process calls but with potentially longer waiting times for dial tone, higher post-dialing delays and a higher probability of callers receiving all trunks busy indications (fast busy) and having to redial calls. Depending on the magnitude and duration of extreme peak demand, PTC would examine alternatives such as provisioning additional facilities and work with connecting carriers to expedite additional capacity.

Nebraska Telephone Assistance Program Terms and Conditions

Nebraska Telephone Assistance Program

The Nebraska Telephone Assistance Program (NTAP) is available for qualifying customers of Pierce Telephone Company. NTAP assistance reduces the cost of basic, monthly local telephone service. Eligible consumers can receive up to \$12.75 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in NTAP. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

NTAP is administered by the Nebraska Public Service Commission.
