Ridgely, TN

E- Rate program provides a way for me to use technology in my classroom. My students use technology every single day outside of school. They want to have technology in the classroom. Virtual field trips, learning video on YouTube, and apps on the I Pad are just a few ways I use technology in my class. I couldn't imagine not having it, but I teach in a very poor county. Technology wouldn't be possible without the funding from E-Rate!

Thanks!
