Los Angeles

I, Kevin Mottus, attest that my statements are true to the best of my knowledge.

Comment round for FCC ET Docket No. 013-84 and ET Docket No. 03-137

1. My name is Kevin Mottus My address is 11041 Santa Monica Blvd. #209
2. I am a social worker.
3. People really are getting sick from exposure to RF radiation from wireless. I personally know 5 people who have gotten sick from the RF radiation emissions from their smart meters. I know three young people with brain tumors where their only sin is to use the wireless devices that you allow to be used and have proliferated in our society. I can have these people testify in front of the commission if you have the guts to have an actual hearing. You are driving people from their homes, communities and some cases this country. You are infirming our youngest, most healthy and most productive citizens. See what you have done to Lebron James (Salivary Gland tumor), Sheryl Crow (Brain Tumor), Mark Ruffalo (Brain Tumor), Jim Kelly (Jaw Tumor), Steve Sabol from NFL Films (Brain Tumor) and thousands of lesser known innocent people (see attached). This is attempted murder and murder. This is a crime against humanity and against our society. The fact that the FCC and the Wireless industry has been able to keep information regarding the health effects from wireless out of the mainstream media is amazing and keep people from making the connection that their wireless exposure is making them sick malicious. To continue this campaign of deception is criminal with malice the means that you do the deceiving is racketeering. This must stop.
