

Before the

FEDERAL COMMUNICATIONS COMMISSION

ET Docket No. 13-84 ET Docket No. 03-137

Washington, DC 20554 In the Matter of Reassessment of Federal Communications Commission Radiofrequency Exposure Limits and Policies Proposed Changes in the Commission's Rules Regarding Human Exposure to Radiofrequency Electromagnetic Fields

TO: the Commissioner

FROM: Charyl Zehfus, researcher, poet perceiver (see latest brain research on brain use styles), educated witness, compassionate friend of everyday people wounded by wireless

Plenty of reputable research, expert and medical information has been uploaded into this docket. Today is the last day to send in reply comments. I am adding this submission to capsulize and emphasize some of the professional information that has already been uploaded – to capsulize and cap off, if you will, the presentation of facts, for the benefit of anyone reading the public input here.

One cannot omit the resounding truth – the echoing impact on every man, woman and child's life from what the FCC does or does not do regarding safe biological RF exposures.

My reply input follows:

three (human) nature haiku

I.

Smart meter pulses
smart data from bedroom wall:
infant's brain cells stall

II.

customers complain;
Public Service Commission
of Wisconsin yawns

III.

Microwaves seeding
damage deep in DNA –
manmade death blossoms
