I, Kevin Mottus, attest that my statements are true to the best of my knowledge.

**Comment** round for FCC ET Docket No. 013-84 and ET Docket No. 03-137

1. My name is Kevin Mottus My address is 11041 Santa Monica Blvd. #209

2. I am a social worker.

3. Look at the evidence from experts and know that there are nonthermal effects from RF radiation and provide protective standards not less protective standards. Is the only thing you care about is money even if you kill your customers you are getting your business from in the end. Don't you think that the public will resent you and the wireless industry once they have found out what you have done to them, how you have exposed them to a damaging carcinogen, jeopardized the health of our population and future generations. See attached for more proof.
