**PETITION FOR SPECIAL RELIEF**

Comcast Cable Communications, LLC, on behalf of its subsidiaries and affiliates (“Comcast”), pursuant to Sections 76.7 and 76.907 of the Commission’s rules,<sup>1</sup> requests that the Commission find that Comcast faces “effective competition” in 5 Washington franchise areas (the “Franchise Areas”).<sup>2</sup>

The Communications Act of 1934, as amended (the “Act”), and the Commission’s rules provide that cable television rates may be regulated only in the absence of effective competition.<sup>3</sup> Cable operators are entitled to demonstrate that effective competition exists on a franchise-by-franchise basis.<sup>4</sup> When a cable operator demonstrates that effective competition exists within a franchise area, cable rates in the affected area are no longer subject to regulation.<sup>5</sup>

---

<sup>1</sup> 47 C.F.R. §§ 76.7 and 76.907.

<sup>2</sup> The Franchise Areas include Airway Heights (WA0350), Liberty Lake (WA0836), Millwood (WA0296), Spokane (WA0231), and Spokane Valley (WA0844).

<sup>3</sup> 47 U.S.C. § 543(a)(2); 47 C.F.R. § 76.905(a).

<sup>4</sup> 47 C.F.R. § 76.907.

<sup>5</sup> See *Implementation of Sections of the Cable Television Consumer Protection and Competition Act of 1992, Rate Regulation*, 8 FCC Rcd. 5631, 5664-5665 (1993) (“Rate Order”).

Under the “competing provider” test set forth in Section 623(1)(1)(B) of the Act and Section 76.905(b)(2) of the Commission’s rules (the “Competing Provider Test”), a cable system will be deemed subject to effective competition if:

- (i) the franchise area is served by at least two unaffiliated multichannel video programming distributors (“MVPDs”), each of which offers comparable programming to at least 50 percent of the households in the franchise area; and
- (ii) the number of households subscribing to multichannel video programming other than the largest MVPD exceeds 15 percent of the households in the franchise area.<sup>6</sup>

As demonstrated below, the Competing Provider Test is satisfied in each of the five Franchise Areas – Airway Heights, Liberty Lake, Millwood, Spokane, and Spokane Valley -- because two unaffiliated MVPDs serve over 50 percent of the Franchise Areas’ households with comparable programming and the reported penetration rate for DBS providers exceeds the 15 percent threshold in the Franchise Areas.

### **THE COMPETING PROVIDER TEST IS SATISFIED IN FIVE FRANCHISE AREAS**

The two prongs of the Competing Provider Test are straightforward and objective. Both prongs of this test clearly are satisfied in the Airway Heights, Liberty Lake, Millwood, Spokane, and Spokane Valley Franchise Areas.

#### **1. Multiple Unaffiliated MVPDs Offer Comparable Programming to Over 50 Percent of the Households in the Franchise Areas.**

The first prong of the Competing Provider Test requires that a franchise area must be served by “at least two unaffiliated multichannel video programming distributors....”<sup>7</sup> This requirement is satisfied, because the two major direct broadcast satellite providers (DirecTV, Inc.

<sup>6</sup> 47 U.S.C. § 543(1)(1)(B)(i) and (ii); 47 C.F.R. § 76.905(b)(2)(i) and (ii).

<sup>7</sup> 47 U.S.C. § 543(1)(1)(B)(i); 47 C.F.R. § 76.905(b)(2)(i). Section 602 of the Communications Act of 1934, as amended, defines “multichannel video programming distributors” to include cable operators, as well as DBS and MMDS providers. *See* 47 U.S.C. § 522(13).

and Dish Network, Corp.) (“DBS Providers”) are unaffiliated with Comcast and “offer” comparable programming to more than 50 percent of the households in the Franchise Areas.

MVPD service is deemed “offered” when it is both technically and actually available.<sup>8</sup> DBS service is presumed to be “technically available” throughout the country due to its nationwide satellite footprint.<sup>9</sup> As such, Comcast’s Franchise Areas are entirely within the satellite footprint of DirecTV and Dish Network.

DBS service is presumed to be “actually available” if households in a franchise area are “reasonably aware” that the service is available.<sup>10</sup> The Commission has stated that “a party may use evidence of penetration rates in the franchise area (the second prong of the competing provider test ...) coupled with the ubiquity of DBS services to show that consumers are reasonably aware of the availability of DBS service.”<sup>11</sup> DirecTV and Dish Network are among

Thus, the Commission has not required the production of advertising to demonstrate that households in the franchise area are “reasonably aware” of the availability of DBS service. See *Bright House Networks, LLC Petition for Determination of Effective Competition (Lake Alfred and Dundee FL)*, 22 FCC Rcd. 4390, ¶ 6 (2007) (“*Bright House Networks – Florida*”) (“Over more than ten years, we have made hundreds of findings that households in particular franchise areas are reasonably aware that they may purchase DBS services based on localized evidence. These accumulated showings amount to substantial evidence that households in all franchise areas are reasonably aware that they may purchase DBS services. In at least one earlier reported decision, we found households in a franchise area to be reasonably aware that they may purchase DBS service solely based on evidence of DBS’s nationwide growth and local subscriptions, without reference to advertising or other promotion.”).

the largest MVPDs in the nation.<sup>12</sup> With approximately 34 million DBS subscribers nationwide,<sup>13</sup> (comprising approximately 34 percent of all MVPD subscribers),<sup>14</sup> extensive DBS advertising, and the substantial DBS penetration figures in each of the Franchise Areas, it is clear that consumers throughout the Franchise Areas are “reasonably” aware of the availability of Comcast’s DBS competitors.<sup>15</sup>

The Competing Provider Test also requires that the programming offered by these competing providers must be “comparable” to the programming offered by the petitioning cable operator.<sup>16</sup> The Commission’s rules expressly define comparable programming as “at least 12 channels of video programming, including at least one channel of nonbroadcast service programming.”<sup>17</sup> The Commission has repeatedly recognized that the DBS Providers offer comparable programming to Comcast and other cable operators under the Commission’s

Competing Provider Test.<sup>18</sup> Each of the DBS Providers offer well over 100 video channels, most of which are non-broadcast services.<sup>19</sup> And, as shown in the attached channel line-up, Comcast's programming service offerings in the Franchise Areas are substantially similar to the DBS Providers' programming services.<sup>20</sup>

Based on the above facts, the first prong of the Competing Provider Test is satisfied in each of the five Franchise Areas.<sup>21</sup>

**2. The Competing Providers Serve Greater Than 15 Percent of the Households In the Franchise Areas.**

The second prong of the Competing Provider Test requires that the subscriber base of competing MVPD exceeds 15 percent of franchise area households.

Because DBS Providers track their subscribers according to the ZIP codes where each subscriber resides (rather than by political jurisdiction), Comcast relied on a two-step approach to determine the number of DBS subscribers within each Franchise Area. To determine the relevant ZIP+4 codes for the Franchise Areas, Comcast first contacted SNL Kagan ("SNL," formerly known as "Media Business Corp.")<sup>22</sup> SNL has developed a process to accurately

<sup>19</sup> See Channel Line-ups of DirecTV and Dish Network, attached hereto as Exhibit 1.

<sup>20</sup> See Comcast Channel Line-up, attached hereto as Exhibit 2.

<sup>21</sup> All of the legal positions taken above regarding the first prong of the Competing Provider Test were recently confirmed by the Commission in *Comcast Cable Communications, LLC, Petition for Determination of Effective Competition in Nine Minnesota Franchise Areas*, FCC Rcd. 5499, ¶ 6 (2013), and *Comcast Cable Communications, LLC, Petition for Determination of Effective Competition in Six Blaine, Minnesota Franchise Areas*, 28 FCC Rcd. 5508, ¶ 7 (2013).

<sup>22</sup> In certain instances, the entire 5-digit ZIP code is located within a particular franchise area. In these situations, Comcast used that standard 5-digit ZIP code, rather than the more detailed ZIP+4 analysis, as the additional detail would not provide any greater accuracy.

identify the ZIP+4 codes that correspond with the political boundaries of a particular community. This process utilizes enhanced mapping software that correlates ZIP+4 codes with political boundaries. With this software, SNL was able to identify the ZIP+4 codes that lie within each of the Franchise Areas.<sup>23</sup> The Commission has previously accepted ZIP+4 codes as “reasonable and sufficiently reliable for purposes of determining the presence of effective competition,”<sup>24</sup> and stated its preference for this approach.<sup>25</sup>

Comcast next provided all of the ZIP+4 codes identified for the Franchise Areas to the Satellite Broadcasting and Communication Association (“SBCA”). SBCA is the national trade association representing the two major DBS Providers, and it has assumed the responsibility for compiling subscribership data and responding to data requests from cable operators and franchising authorities engaged in effective competition proceedings. The DBS subscriber numbers reported in the attached Effective Competition Tracking Reports (“ECTRs”) from SBCA reflect the total DBS subscribers within the individual ZIP+4 codes associated with the respective Franchise Areas.<sup>26</sup>

To determine whether the DBS subscribership exceeds the 15 percent threshold in the Franchise Areas, Comcast compared the DBS Providers’ subscribership to the most recent U.S.

Census “occupied household unit” figures for each community.<sup>27</sup> This comparison yields the penetration rates for DBS Providers in each of the Franchise Areas:

<u>Franchise Area</u>	<u>DBS Providers’ Penetration</u>
Airway Heights	22.88%
Liberty Lake	31.80%
Millwood	18.91%
Spokane	15.82%
Spokane Valley	20.30%

As detailed in Exhibit 6, the subscriber penetration rates for the DBS Providers in each of the Franchise Areas exceeds the 15 percent threshold required under Section 623(1)(1)(B) of the Act. Accordingly, Comcast meets the second prong of the Competing Provider Test in each of the Franchise Areas.<sup>28</sup>

<sup>27</sup> See Exhibit 5.

<sup>28</sup> Comcast has confirmed that it is the largest MVPD in the Airway Heights, Liberty Lake, Millwood, Spokane, and Spokane Valley Franchise Areas. See Declaration of Warren Fitting attached hereto.

**CONCLUSION**

Comcast's cable systems are subject to effective competition in five Franchise Areas under the Competing Provider Test. Based on the evidence presented herein, Comcast respectfully requests that the Media Bureau issue an order acknowledging the presence of effective competition in each of the five Washington Franchise Areas as of the filing date of this Petition.<sup>29</sup>

Davis Wright Tremaine LLP  
1919 Pennsylvania Avenue, N.W.  
Suite 800  
Washington, DC 20006

To Whom It May Concern:

SNL Kagan utilizes a multi-step process to accurately identify cable client franchise areas and associated ZIP and ZIP+4 Codes. (A ZIP+4 Code includes the five digits of the United States Postal Service ZIP Code, a hyphen, and four more digits that determine a more precise location than the ZIP Code.)

This methodology was developed to address the potential shortcomings in utilizing 5-digit ZIP Code data for "Effective Competition" petitions. The basic methodology has been in place for several years and has been used successfully in many Effective Competition cases at the FCC.

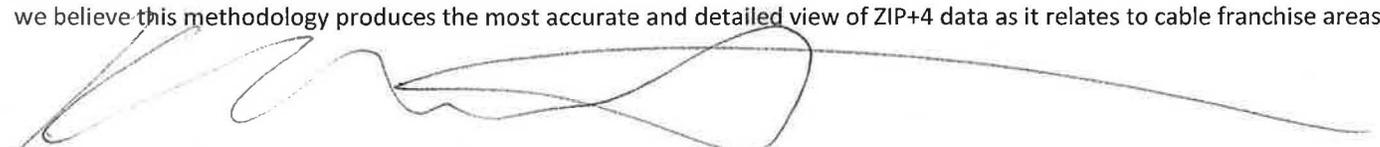

Because ZIP Codes and municipal boundaries are created and managed by different government authorities, the boundaries of ZIP Codes and municipal boundaries often overlap. ZIP Codes frequently span between and beyond municipal boundaries. ZIP+4 Codes, however, usually reside in one and only one municipality. SNL Kagan uses Place, Minor Civil Division (MCD), and County boundaries from Dynamap® a division of Pitney Bowes Business Insight, to determine municipal boundaries. SNL Kagan uses the Dynamap® ZIP+4 Centroids database, which contains ZIP+4 centroid correspondence for virtually all deliverable ZIP+4s, to identify ZIP+4 Codes within municipal boundaries, among the over 60 million ZIP+4s in all 50 states, DC, and Puerto Rico, based on current data from the USPS and the U.S. Bureau of the Census, and the Tele Atlas master street database.

SNL Kagan then utilizes its ZIP+4 Code mapping to enable our clients to obtain proper "Direct-to-Home" (DTH) subscriber counts for their respective franchise areas by tracking DTH subscribers at the ZIP+4 Code level. (Where SNL Kagan determines that a ZIP Code falls entirely within a franchise area, however, it is unnecessary to identify DTH subscribers at the ZIP+4 Code level for that 5-digit ZIP Code. In these instances, SNL Kagan identifies such 5-digit ZIP Codes and, accordingly, DTH subscribers are identified by the 5-digit ZIP code only.)

Only ZIP+4 Codes that meet specific criteria are included in this report. The following criteria must be met:

- The centroid of the ZIP+4 Code is within the franchise area; and
- The USPS ZIP+4 Record Type (from Dynamap® ZIP+4 Centroids) is either H- high rise or S – street.

Our methodology has been used by many multiple system operators (MSOs) as part of their Effective Competition relief efforts, and we believe this methodology produces the most accurate and detailed view of ZIP+4 data as it relates to cable franchise areas.
