Gentlemen:

My communication with your venue is regarding rules pertaining to Indecency and Obscenity and vicious business unethical business principles.

I have had, for the second time, a dispute with COMCAST Cable, This is the second time they have tampered with channels and just removed from my programs, my favorites.

Also every channel contained nudity and obscenity, this including FUCK, MOTHERFUCKER, SHIT COCKSUCKER, ASS, ASSHOLE, etc. ad nauseum.

I have had channels with Diary of a Nymphomaniac, Leaving. House of Pleasure, etc. All with depicted between men and women women and women and men and men, sex. I was in my early 80's when I renewed my business with COMCAST who kept asking for my social security number to verify what they had; I never gave them the last four digits of it. They had Movies on Demand with one called Illegal in Blue, MARONE."

On Monday 9/23/13 the channels I like were removed and I called Comcast and was told they would be restored within 24 hours at a lower rate of \$39.95; I was then paying \$47.10 or a total of \$565 per annum.

I waited from 9/23 to Thursday the 26th, each time I called to inquire being told a different story for restoring my programming. I was polite, patient until thursday at which time I told whomever I spoke to Go to Hell. And the response was What did you say. and I told her I wanted the Comcast cable removed from my home. Her reply was Unfortunately we cannot do that.

My further efforts on the phone resulted in horrible jamming sounds Horrible, when I tried to speak the other end would speak with me which precluded any conversation clear to normal ear, or for that matter, any ear.

They did remove their cable box on Friday the 27th. Some days later someone saying they were from comcas in Nashville, Tennessee called and asked for JANEICE REMERS. using the wrong pronunciation of my first name and Rem for sleep it's REE. At this point ] realized screwing up my TV was'nt enough and hung up.

So I had tried Bureau of Public Utilities no effect.

Very truly yours,
