Ex Parte

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: *Numbering Policies for Modern Communications*, WC Docket No. 13-97; *IP-Enabled Services*, WC Docket No. 04-36; *Telephone Number Requirements for IP-Enabled Services Providers*, WC Docket No. 07-243; *Telephone Number Portability*, CC Docket No. 95-116; *Developing a Unified Intercarrier Compensation Regime*, CC Docket No. 01-92; *Connect America Fund*, WC Docket No. 10-90; *Numbering Resource Optimization*, CC Docket No. 99-200

Dear Ms. Dortch:

Pursuant to paragraph 103 of the *Notice of Proposed Rulemaking, Order, and Notice of Inquiry* issued in the above-captioned proceedings on April 18, 2013 (“Order”), Level 3 Communications, LLC (“Level 3”), on behalf of itself and its affiliates, WilTel Communications, LLC and Level 3 Enhanced Services, LLC (“Level 3 ES”), hereby submits its fourth report on its numbering trial. Data reported are current as of December 12, 2013.

1. Total number of new telephone numbers placed in service: 2,732
2. Total number of port-in requests: 21,987
3. Percentage of successful ports-in: 100%¹
4. Total number of port-out requests for Level 3 ES numbers held directly: 18
5. Percentage of successful ports-out: 100%
6. Total number of routing failures: 0
7. Billing/compensation disputes: None

¹ This figure excludes port-in requests that were pending or canceled as of December 12, 2013.

Following the submission of Level 3's third trial report,² Level 3 identified certain inaccuracies in the port-in and port-out data reported. Below we provide revised data for the third report:

1. Total number of new telephone numbers placed in service: 1,515
2. Total number of port-in requests: 13,815³
3. Percentage of successful ports-in: 100%⁴
4. Total number of port-out requests for Level 3 ES numbers held directly: 11⁵
5. Percentage of successful ports-out: 100%
6. Total number of routing failures: 0
7. Billing/compensation disputes: None

As noted in prior filings, Level 3 ES has been unable to successfully test call routing in the Denver rate center.⁶ CenturyLink, the incumbent serving that area, has advised Level 3 that it will not route traffic to Level 3 for telephone numbers associated with the Level 3 ES Operating Company Number over its existing interconnection with Level 3, although it has not identified any technical, regulatory, or other obstacle to routing the traffic in this manner.

Please contact the undersigned with any questions about this matter.

Sincerely,

/s/ Joseph C. Cavender
