To: doug <2dougs@gmail.com>

Havens and SkyTel entities had a person who does work for them, Doug Sornberger, contact the Claridge House II from which MCLM claims to have constructed and be operating its Station Location #15 in Verona, NJ. Mr. Gallo is the Property Manager for Claridge House II, so he has direct knowledge of the site. Below he states that he does not know of any 217 MHz operation on the Claridge House's roof or any operation by MCLM.

Doug ~

As stated, it is my understanding and belief that CH II does not have a 217 MHz on its roof, let alone via maritime Communications and land mobile. In fact we only have contracts w/ cell Phone providers and local TV stations. So if you remain interested in our site, please advise, I am sorry I cannot help you.

Hi again Stephen,

I spoke to my general manager and he found this link <http://wireless2.fcc.gov/UlsApp/UlsSearch/licenseLocDetail.jsp?pageNumToReturn=1&keyLoc=14959975&licKey=1984384> from the FCC website indicating that Maritime Communications/Land Mobile, LLC says that they are operating from your site. We would first need to get something from you in writing to show to the FCC that they are not operating there. Then we would be able to proceed with testing for our build-out. Do you want me to send you a draft statement for review? Do you know if there are other towers or antennas on buildings nearby that could be confusing this site? And if so do you know who owns them? I've also attached a map of the coordinates listed from the FCC site.

-Douglas

Hi Steven,

It was good talking with you. Before we spend much more time on this I would like to confirm that you don't already have 217MHz on your roof.

Thank you,

- Douglas
