**WARNING:** This letter requires a timely response. You must respond to this letter within thirty (30) calendar days from the above date.

Dear Licensee:

In connection with the auction of unassigned Automated Maritime Telecommunications System (AMTS) spectrum, *see* Automated Maritime Telecommunications System Spectrum Auction Scheduled for September 15, 2004, *Public Notice*, 19 FCC Rcd 6274 (WTB 2004), the Federal Communications Commission's Wireless Telecommunications Bureau is reviewing the information in its licensing database regarding the construction status of licensed AMTS stations. The Commission's Rules require construction with a specified time frame (*see* Section 80.49 of the Commission's Rules, 47 C.F.R. § 80.49) in order for the license to remain valid. Specifically, when a licensee fails to construct its authorized facilities within the requisite construction period, the station license cancels automatically.

In reviewing construction information previously submitted for certain AMTS facilities for which you hold a license, we find that you provided estimated future dates for activation and/or to begin initial tests to commence service, rather than notification that construction had been completed by a certain date. We now seek to confirm the actual construction completion dates. We are writing this letter to offer you the opportunity to supplement the information on file concerning the construction status of these stations. For your convenience, the call signs, location numbers, and site names in question are listed in an attachment to this letter. Please review the stations/locations listed under each call sign and provide the actual construction completion date for each site. If the site has not been constructed, please so indicate in your response.

If you are not sure which authorized sites are in question, you may find this information via the Internet using the Universal Licensing System (ULS) at <http://wireless.fcc.gov/uls>. Please do not use your response to this inquiry to modify a license in any way.

You can reply to this inquiry by faxing your response to Kim Kleppinger at 717-338-2696 or by mail to Kim Kleppinger, WTB, PS&CID, 1270 Fairfield Road, Gettysburg, PA 17325. An authorized person of your company must certify to the accuracy of all responses by signing the form.

Sincerely,

  
Tracy Simmons  
Associate Chief, Licensing Operations  
Public Safety and Critical Infrastructure Division

Re: AMTS Construction Audit  
 (PS & CID - 666)

Dear Ms. Kleppinger:

Enclosed with this correspondence, please find the response by Mobex Network Services, LLC to the Public Safety and Critical Infrastructure Division's Construction Audit Inquiry dated September 13, 2004. The attached response provides data for six (6) specific call signs for multiple operating frequencies/locations.

Any questions regarding the attached may be addressed to the undersigned.

Sincerely,

Robert M. Quers  
 Raymond J. Quianzon  
 Counsel to Mobex Network Services, LLC
