Funding Commitment Decision Letter For FY 2013

Appeal Narrative:

When the Form 471 was filed, a clerical error occurred in the total number of students reported for Mercer Elementary School, entity number 47959. This error was not caught in the RAL process. The total enrollment was entered as 3780 and should have been 378. As a result, the shared discount percentage was skewed lower than it should

have been and the resulting amount of the funding commitments for all FRNs was lowered.

An appeal was filed with USAC and denied on October 10, 2013. It was denied because the FCC's Bishop Perry Order provided applicants the ability to correct arithmetic errors via the Form 471 RAL process.

However, the Form 471 Receipt Acknowledgement letter contains no data field for Block 4 to review the free and reduced lunch numbers or total enrollment entered by school building. As a result, it would have been impossible for the applicant to notice this error.

We ask for a favorable decision in this appeal so the correct discount percentage will be approved.

Thank you,

Jack Rienstra
