Dear Sirs,

The satellite services provided by your company are an invaluable tool to my office. Being Sheriff of Brewster County, we utilize our satellite phones on a daily basis. This County covers 6,200 miles of land where conventional phone services, and cell phone reception are non-existent and without them, we would face many challenges that could be harmful to the public and/or my Deputies.

If we can be of any further assistance, please let us know.

Sincerely,

Ronny Dodson, Sheriff  
Brewster County, Texas
