

7521066407.txt

PLEASE, PLEASE, PLEASE DO NOT allow passengers to use their cell phone in flight. People have no idea how loud they talk when using a cell phone, and the business traveller would be on the darn thing almost all the time.

I guarantee you if cell phone use is allowed you will have fights in the worst possible place, a closed container at 35,000' going 450 knots, and a little flight attendant trying to stop the fight.

BAD IDEA, please do not pass this.
