

I am writing re proposals to exempt cell tower expansion in the Adirondacks from local & state review. I am opposed for the following reasons:

- A generic, nationwide plan for cell tower expansions will not work in places like the Adirondack Park that have valuable scenic and historic resources.
- You should not wipe out the APA's successful policy for the siting and modification to cell towers, which has protected the scenic beauty and ecology of the Adirondacks for 12 years.
- The proposed rule should exempt those areas that have established standards for cell towers, such as the Adirondack Park.

Thank you.
