Public Comments on Expanding Access to Mobile Wireless Services Onboard Aircraft:=====

Title: Expanding Access to Mobile Wireless Services Onboard Aircraft

FR Document Number: 2013-31203

RIN:

Publish Date: 1/15/2014 12:00:00 AM

Submitter Info:

First Name: Clark

Last Name: Vellema

Mailing Address: P.O. Box 453

City: Snohomish

Country: United States

State or Province: WA

ZIP/Postal Code: 98291

Email Address: clark.vellema@gmail.com

Comment: I accept your request for public comment and wish to state my opposition to the proposal for expanding access to Mobile Wireless Services Onboard Aircraft.

Travel aboard aircraft subjects all passengers to confined space and conditions such that the norms of acceptable social behavior is already severely tested. Adding another layer of intrusion into one's personal space with expanded wireless usage will, without doubt, fragment the fragile balance that currently exists. Whatever value that is realized by passengers using expanded wireless services under the proposed rule will be at the detriment of their adjacent fellow passengers who separately are made to bear the related societal costs.

I am afraid that should you allow such expanded wireless access it will prove to be a difficult matter to rectify after these privileges and problems have become the norm; akin to 'closing the barn door after the horse has bolted'.
