

Do not allow cell towers to be erected in our scenic and most primitive of State Parks West of the Mississippi Keep the Adirondack Park Free from Cell Towers

Keep the Adirondack Park free from cell towers. We all need some place to go to rest, relax, and play in a primitive and scenic Park! Ugly Cell towers remind many people of home. You vacation or slip into a Park for a few days to get way from the hectic life at home or work! Cell towers on the top of Mountains will ruin the scenic landscape of the Adirondack Park. I do not want to be kayaking five miles into the primitive wilderness and hears someone's cell phone ringing.
