I am appalled at your recent consideration to drop the ban on cuss words and on nudity. I cannot believe you would let innocent children be exposed to this kind of filth. There are decent and moral families in this country that are outraged and I am ashamed to be an American and be part of this filth that YOU are contributing to. You already allow soft porn at 8:00 pm on broadcast networks. What else is next? I am afraid to know what your disgusting minds will think of.
