In the Matter of

Amendment of Section 73.202(b),
Table of Allotments, FM Broadcast Stations
(Dayton, Washington)

MB Docket No. 14-_____

RM-_____

Directed to: Office of the Secretary
Attention: Chief, Media Bureau

PETITION FOR RULE MAKING

Brett E. Miller hereby respectfully submits this Petition for Rule Making to allot Channel 272A to Dayton, Washington. With respect thereto, the following is stated:

As set forth in the attached Engineering Statement, the allotment of Channel 272A at Dayton can be made in accordance with Commission rules and policies, provided there is a site restriction 2.5 kilometers southwest of the community in order to avoid a short-spacing to KRAO-FM on Channel 273C3 at Colfax, Washington. The proposed allotment site is fully-spaced, and city grade service will be provided to the entire community of license. Concurrently herewith, the proponent is filing an application on Form 301 for a construction permit for the Channel 272A allotment at Dayton, and that application is also in accordance with the Commission's rules and policies. If this allotment is made, I will prosecute the application filed concurrently with this petition and will participate in any auction of the Dayton allotment. In addition, if I am the winning bidder and am granted a construction permit, I will promptly construct the facilities authorized.

Grant of the instant petition would result in a second local service for the community of Dayton, which is an incorporated city with a 2010 Census population of 2,526 persons.

The undersigned respectfully requests that the Commission grant this petition and allot Channel 272A for use at Dayton, Washington.

Respectfully submitted:

By: Brett E. Miller

Engineering Statement

This Engineering Statement has been prepared on behalf of Brett E. Miller, in support of a Petition for Rulemaking to amend §73.202 of the Commission's Rules to allot Channel 272A for use at Dayton, Washington, as that community's second local service.

The attached spacing study is included to demonstrate that Channel 272A can be allotted for use at Dayton, with a site restriction southwest of the community at N46-18-20 x W118-00-03, in order to avoid a short-spacing to KRAO-FM 273C3 Colfax. This site is just 2.5 km from downtown Dayton. The standard Class A 70 dBu contour distance is 16.2 km, and so this site will provide 70 dBu service to 100% of Dayton.

Dayton is an incorporated city in Columbia County, with a 2010 Census population of 2,526 persons.

As required, a Form 301 application is also being filed for Channel 272A at Dayton.
