

Please do not spoil the scenic beauty found in the Adirondack Park by wiping out the APA's successful policy concerning the siting and modification of cell phone towers. Isn't it enough to see cell phones wherever you go today!!! People are talking while they shop, drive, eat at restaurants, walk down, the street, and soon will be doing it on planes. You go to a park to enjoy the natural beauty, peace, and quiet. This cell tower rule should exempt areas such as the Adirondack Park.
