Appeal Explanation

Ferris ISD has failed to complete the submissions for our 2013 Form 471 within the filing window. We went through a change at central office and the person assigned to this task forgot to file it. When I came on and started working on our 2014 submissions, we found the error. I contacted our Regional Service Center for guidance and they suggested filing an appeal and hoping for the best. I understand that we filed well outside of the filing window, but we respectfully request your leniency in this matter.

Sincerely,
T. J. Knight
Director of Assessment & Operations
