Hello, my name is Charles. I appreciate the ability to watch free over-the-air television made available through low power television stations. I have recently learned that the FCC may make spectrum available to be auctioned, which may force some LPTV broadcasters off the air. The FCC must protect local LPTV stations. There are programs that my family and others enjoy that are unavailable through other sources. Free TV is safe TV. Many Cable programs are not appropriate for my family to watch. Some shows we enjoy are only available to us over-the-air through my local LPTV station. People should not have to pay for cable, satellite or fiber to simply watch TV. There are now many free TV stations available with a simple antenna. Please DO NOT take any of those free stations away from us or the rest of the public TV viewers. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air. Thank you for taking a moment to listen to my thoughts and concerns.
