**Re:** *Wireless E911 Location Accuracy Requirements – PS Docket No. 07-114*

Dear Ms. Dortch:

On February 13, 2014 Joan Marsh from AT&T Services, Inc. (AT&T), met by phone with David Goldman, Senior Legal Advisor to Commission Rosenworcel, to discuss the Notice of Proposed Rulemaking for Improving Wireless E911 Location Accuracy scheduled for the February Open Meeting agenda. Joan indicated AT&T's continued strong support for public safety issues and expressed that the time was right to begin discussing Indoor Location Accuracy for E911.

She also stated that FCC should be careful to ensure that any proposed rules on location accuracy are aligned with proven capabilities of the current state of technology and they should set realistic accuracy benchmarks that the industry and public safety can embrace. The FCC should continue to look to the Communications Security, Reliability, and Interoperability Council (CSRIC) for guidance on the indoor location accuracy benchmarks. Finally, we noted that the partnership between the industry and the public safety community has been highly successful in resolving public safety issues in the past, and it remains the best approach for resolving the indoor location accuracy issues raised in the upcoming proceeding.

In accordance with the Commission's rules, this letter is being filed in the above referenced docket via the FCC's Electronic Comments Filing System.

Should you have any questions regarding the above, please feel free to contact me directly.

Sincerely,

/s/ Joseph P. Marx  
Assistant Vice President, AT&T Services Inc

Cc (via e-mail):

Mr. David Goldman

## Your submission has been accepted

**ECFS Filing Receipt - Confirmation number: 2014213334566**

### Proceeding

Name	Subject
