I want to object to the merger of Comcast and Time Warner. This will create a monopolistic mega company that will increase the prices, lower the service standards even more (I have Comcast and they charge a lot for little) and they new company will NOT respect Internet Neutrality.

I live in Kearny and the only cable company that I can get is Comcast so there you go, that's a monopoly right there.

Again, I OBJECT to this merger. It will NOT serve public interest at all.
