Comment: Please Ban Cell phones on planes. Yes, it does sound innocent and a customer service to all. However, did anyone think that if the terrorists had use of cell phone during the 9/11 incidents their actions might have taken place a bit quicker? It's a great way to communicate with one another regarding the whereabouts of the crew members and pass information along to one another to let the "others" know that the cockpit or FA's are not paying attention and now is the time. As a crew member and a customer, I WANT TO BE ABLE TO KEEP PLANES SAFE from any future attacks or attempts.

BAN CELL PHONE USAGE AND PHONE CALLS FROM ALL AC. I know that they are allowed in foreign countries, but they have not been attacked YET! It's all a matter of time. We are all vulnerable. Do not be compliant, that's when we let our guard down and something can happen again.
