Introduction

Pursuant to Condition § IV.D.3, Comcast is required to submit a report describing compliance with Condition § IV.D.1 regarding Comcast's provision of standalone Broadband Internet Access Service ("BIAS") and providing certain additional information upon any price adjustment of a standalone BIAS offering. Effective in January and February, 2014, Comcast adjusted pricing for certain of its standalone BIAS services in certain service areas in which it offers BIAS services. In order to avoid the filing of duplicative reports within close proximity, Comcast is filing one combined report to satisfy the requirements for submission of both the annual report and the report based upon the standalone price adjustments that occurred in January and February. In addition, this report reflects speed and price changes that Comcast anticipates to be effective by the end of April 2014.

Report

Comcast continues to offer standalone BIAS to customers throughout the service areas in which it offers BIAS services.<sup>3</sup> Those offerings include a standalone BIAS tier in each of its markets under the name "Performance Starter" that Comcast has provisioned to deliver 6 Mbps down and offers at the retail price of \$49.95 per month. Comcast also offers other standalone tiers of BIAS, at reasonable market-based prices, with speeds that correspond to those offered in its retail multi-product offerings in the relevant service area.<sup>4</sup> Such standalone offerings are available on equivalent terms and conditions to the most comparable BIAS tier available in Comcast's multi-product offerings. Further detail is available in Exhibit A.

The aggregate number of standalone BIAS lines Comcast provisioned as of January 21, 2014 was [[           ]].

---

<sup>3</sup> Comcast offers BIAS to over 99 percent of homes passed by Comcast cable systems.

<sup>4</sup> Comcast generally sells BIAS in three ways: (i) on a standalone basis; (ii) with discounted, multi-product pricing (such that the price for the Internet access service is reduced if the customer subscribes to one or more other Comcast products); and (iii) as part of bundles for which Comcast determines aggregate prices, without separate pricing for the individual products. As Comcast does not determine separate pricing for the individual products within a bundle, Parts I and II of Exhibit A set forth speeds and pricing only for standalone and multi-product BIAS offerings. For reference purposes, Part II of Exhibit A also provides pricing information for Comcast's National Triple Play Bundles, and pricing information for variations of those pricing plans that have been adopted in the Markets identified therein.

Parts I and II of Exhibit A set forth the standalone and multi-product BIAS speeds and pricing offered by Comcast to customers as of February 17, 2014 (except for the anticipatory price changes noted above) in Comcast's top 30 markets (which were determined as of February 17, 2014). The information reflects post-promotional pricing, and (in the case of the multi-product pricing) assumes that the customer continues to subscribe to one other product (video or voice) or all three products (video, voice, and Internet), as applicable.

Part III of Exhibit A sets forth, by company and to the best of Comcast's knowledge after review of those companies' websites, the standalone BIAS offerings of Comcast's principal competitors and the post-promotional pricing of such offerings. Comcast has identified principal competitors, their standalone BIAS offerings, and the pricing of such offerings as of February, 2014.

In addition, Comcast notes that, pursuant to Condition § XVI.2, Comcast offers BIAS service under the name *Internet Essentials* throughout its service areas, including in each of the 30 markets referenced in Exhibit A. *Internet Essentials* is a comprehensive broadband adoption program that provides low-cost broadband access to households meeting the program's unique eligibility requirements.<sup>5</sup> As this service tier is designed for a specific population with unique eligibility criteria and is subject to separate reporting under the *Comcast-NBCUniversal Order*, Comcast treats it separately from the generally available retail services that are the subject of this report. Subject to the program's eligibility requirements, *Internet Essentials* is available on both a standalone and multi-product basis, with no differentiation in price. Likewise, Comcast is offering a prepaid standalone BIAS product in a few cities on a trial basis. It has limited availability and has not been adopted widely, and therefore is not included in Exhibit A.<sup>6</sup>

---

<sup>5</sup> The eligibility criteria are codified in Condition § XVI.2.f of the *Comcast-NBCUniversal Order*.

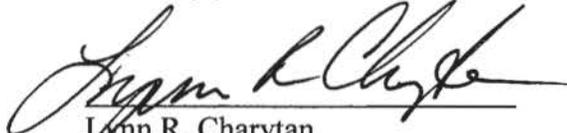

<sup>6</sup> The service speed is 3 Mbps/768 kbps, and service can be purchased in 7 or 30 day increments.
