Re: WT Services, Inc. Expression of Interest for Connect America Phase II
Experiment
WC Docket No. 10-90 – Connect America Fund

Dear Ms. Dortch:

WT Services, Inc. (WTS) hereby submits its expression of interest to conduct a Connect America Phase II experiment in Bushland, TX. Bushland is situated in northern Randall County (census tract 021704) and portions of Potter County (census tract 014300).

WTS is a competitive local exchange carrier and a subsidiary of West Texas Rural Telephone Cooperative. With this parentage, we are highly experienced providers of high-quality modern communications services in rural communities. Our focus has been on offering a superior alternative to consumers, businesses and anchor institutions in neighboring price cap rural areas that are being underserved by the incumbent.

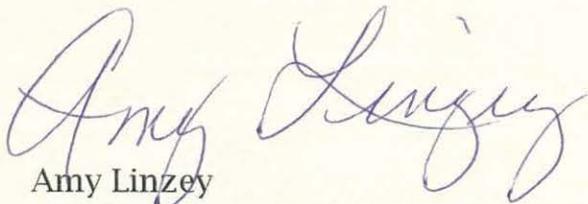

WT Services has already begun a FTTP installation in Bushland using limited general funds. To date, installation is completed to the school system, several small businesses and one neighborhood. We have begun work on another neighborhood. There are approximately 500 residences, and we have currently passed about 100. There are seven existing widespread neighborhoods, plus a new greenfield build in this growing, but rural unincorporated community.

Bushland consumers are currently on a waitlist for DSL from the incumbent. CAF support for this experiment would enable WTS to extend FTTP technology (and as a result, high-speed broadband services) to the remaining residents and businesses of Bushland much quicker than it otherwise would.

The services that WTS intends to offer via the FTTP builds in Bushland include voice communications, high-speed broadband, and IPTV. We estimate that the experiment would be feasible with either a one-time funding of approximately \$2 million or \$1 million annually spread over two (2) years.

Thank you for your consideration. If you have any questions, please contact me at 806-276-5519 or via my email address, amylinzey@wtrt.net.

Sincerely,
