**Re: Expression of Interest – Rural Broadband Experiments Connect
America Fund, WC Docket No. 10-90**

Dear Chairman Wheeler, Commissioners, and Mr. Chambers,

This letter is to express Mobile Communication, LLCs interest in receiving funding from the Rural Broadband Experiments announced at the January 30th FCC Open Meeting.

Background

Mobile Communications, LLC is a Limited Liability company registered in the State of Mississippi, providing High Speed Wireless Internet services to rural areas of the Delta. We currently provide services for about 140 customers while building out infrastructure to provide service to many more. As growth and funding allows we will continue to expand our coverage area well beyond the areas listed above. We have been servicing the customers for 4 years as Mobile Communications, LLC spent 2 years in experimenting with different radio systems to bring the speeds and reliability to the customers.

Geographic Territory

Mobile Communications, LLC. ’s plan is to provide High Speed Wireless to Washington, Tallahatchie, Bolivar, Cohoma, Humphreys, Holmes, Montgomery, Grenada if awarded while continuing to serve and expand coverage to Leflore, Carroll, Sunflower, Montgomery, Humphreys and Holmes Counties in Mississippi.

MOBILECOMM

Eligible Telecommunications Carrier (ETC) Status.

We are currently applying for ETC status

List of Anchor Institutions

Schools:Maybe Libraries:4

Healthcare:0 City offices:4

Community Centers:8

Proposed technology

2.4 Technology to the premise and then wired to the CPU. Basically \$50 per month for up to 3.0Mbps download

State and/or Local or Tribal Government Participation in and/or Support for Project

We have been utilizing water towers owned by local governments to help extend coverage to citizens, We will continue to have great working relations with local governments in acquiring right of ways and utilizing tower structures.

Existing Providers

We do not have any local providers.

Project Timeline

We would like to get started ASAP and have the listed areas serviced within 2 years or sooner, dependent on funding and weather.

Scalability

The scalability of our network is of state of the art current equipment. We always keep up with technology and are always looking to move into the next best network design to keep up with the demand and future involvement. We strive to bring the highest speeds with NO caps or Limits to the end user. With funding for experimenting, we can test ALL areas of the spectrum with new innovated equipment.

Total Business Investment

Mobile Communications,LLC will spend approx 40% of its recurring monthly (Yearly) revenue to the expansion into these areas with the experimenting with new technology and also using the current platforms

MOBILECOMM

Investment Needed

Mobile Communications,LLC would like to see a funding for tower and radio equipment in the amount of \$500,500.00 and a yearly recurring funding in the amount of \$85,000.00 to offset the cost for additional employees.

Leveraging Funds

We are exploring the opportunity to coordinate with other projects and leveraging funds.

Total Project Cost

\$1,400,000.00

Thank you for considering our Expression of Interest in your decision about the amount of funding that will be allocated in the Rural Broadband Experiments. We commend the FCC in this effort to connect rural communities and are ready to help you close the digital divide.

Sincerely,

Bobby Norwood
CEO
Mobile Communications,LLC.
