Re: *WC Docket No. 10-90, Connect America Fund; High-Cost Universal Service Support*

Submitting Entity:

TransWorld Network, Corp. (TWN) is based in Oldsmar, FL and is a WISP specializing in fixed, wireless broadband deployment to rural, un-served and underserved areas. TWN offers both residential and business services in communities throughout Arizona, New Mexico, Texas and Indiana.

TransWorld Network, Corp, (TWN) is filing a non-binding expression of interest for the Connect America Phase II Experiments. Included in this expression of interest is information relating to Rural Electric Cooperative interest in joint deployment, proposed service area, type of technology to be deployed, service offerings and funding level requested.

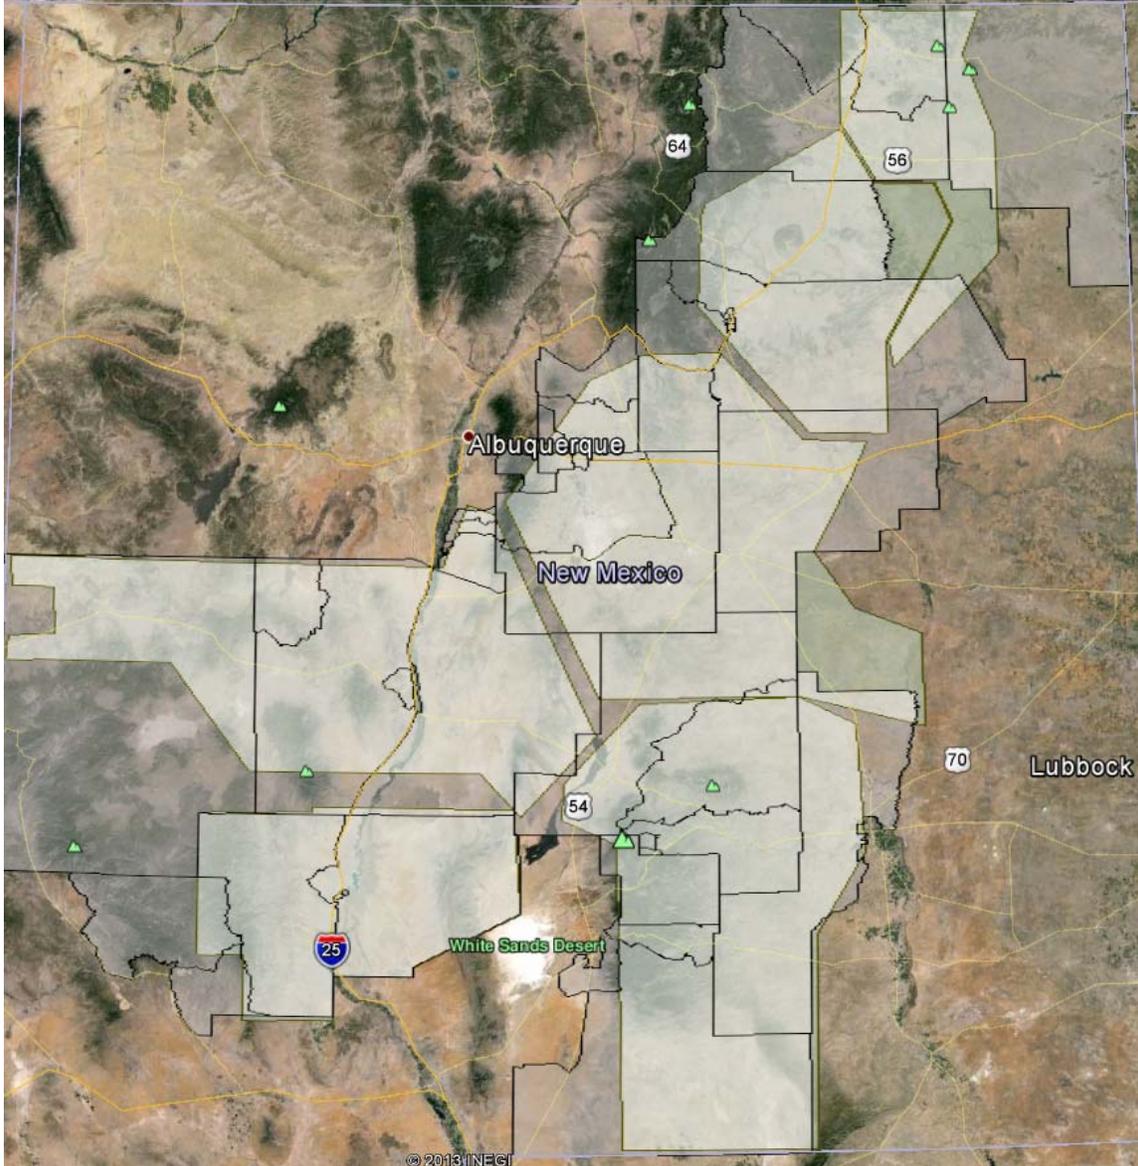

Joining TWN in the expression of interest are several Rural Electric Cooperative partners. TWN currently works with many of these electric co-ops to provide high-speed Internet services in their respective service territories and with additional funding could leverage existing broadband infrastructure to offer broadband services throughout the eligible rural underserved and unserved wireline service areas of our Cooperative partners.

The NM Rural Electric Cooperatives that support TWN's expression of interest are:

- Sierra Electric Cooperative – Elephant Butte, NM
- Springer Electric Cooperative – Springer, NM
- Central New Mexico Electric Cooperative – Mountainair, NM

Proposed Service Area: Eligible Census tracts in select areas of New Mexico

TWN would provide service in the following NM census tracts that are designated as underserved by broadband services:

35007950700	35011960100	35027960600	3501003807	35061971100	35061970302	35061970301
35053978301	35059378100	35053940000	35051962401	35051962300	35049010310	35049010309
35059950200	35057963700	35057963600	35057963202	35057963201	35047957800	35047957700
35047957400	35047957300	35047957200	35035940000	35035000901	35019961600	35027960800
35053978200	35051962402	35049010311	35047957600	35047957500	35035000902	35035000602
35033955200	35003976400	35027960400	35027960300	35027960200	35021000100	35017964600
35017964100	35007950600	35007950500	35005001102			

Current State Support: NONE

5 year support estimate of funding requested: \$2,475,000

Type of Technology: TWN will deploy a fixed, wireless network infrastructure to offer residential and business class voice and data services to customers in these eligible areas.

Service Offerings:
