Ms. Marlene H. Dortch, Secretary
Federal Communications Commission (FCC)
445 12th Street, SW
Washington, DC 20554

Subject: WC Docket No. 10-90
Rural Broadband Experiment Expression of Interest

Dear Ms. Dortch:

Arvig Enterprises, Inc. dba Arvig hereby expresses interest in participating in the Commission’s rural broadband experiments to deliver robust, scalable high-speed broadband to unserved high-cost areas with additional Connect America funding.

The items requested are as outlined below.

---

**Company Background**
Arvig, an independently owned telecommunications provider serving both rural and metro areas in Minnesota, is a multi-service corporation providing communications products and services to more than 120,000 customers throughout a service area that covers over 9,000 square miles. Arvig serves 28 counties and has over 6,000 fiber miles, more than 2,500 route miles and 100 plus cell towers within the state. Having grown from the small, family-owned East Ottertail Telephone Company to one of the largest telecommunications providers in the nation, Arvig is now an industry leader in rural telecommunications services. Core product offerings include local telephone service, long distance, cable television, high-speed Internet, wireless, cellular, business phone systems, security systems and yellow page advertisement.

**Geographic Territory**
Arvig is proposing to serve the identified areas with FTTH technology. There is a significant need for broadband in the areas listed below.

<table>
<thead>
<tr>
<th>State</th>
<th>County</th>
<th>Township</th>
<th>Census Tract</th>
</tr>
</thead>
<tbody>
<tr>
<td>MN</td>
<td>Todd</td>
<td>Long Prairie</td>
<td>271537906.00</td>
</tr>
</tbody>
</table>

**Anchor Institutions**
Anchor institutions would include but are not necessarily limited to the Long Prairie City Office (which houses the City Administration, Public Works, Police and Fire Departments), Long Prairie-Grey Eagle High School District Office, Long Prairie-Grey Eagle High School, Long Prairie Elementary and Middle School, Long Prairie Trinity Lutheran School (LCMS), St. John Vianney Academy (K-8), Valley View Estates Assisted Living, CentraCare Health System –

Proposed Technology Platform
Arvig plans to construct a high capacity fiber via Ethernet in anchor institutions in the Long Prairie area, capable of providing speeds to 1Gbps. The network will be capable of providing secure enhanced services including VoIP, Internet, VPN, WAN and other value added services. All services will be offered at competitive market rates.

State and/or Local or Tribal Government Participation in and/or Support for Project
Yes, local city and county governments will write a letter of support if this project is funded.

Existing Providers
Both Charter and CenturyLink provide service to the town of Long Prairie but do not have fiber to all anchor institutions.

Project Timeline
Arvig is ready as soon as funding is acquired.

Scalability
The proposed network is scalable and can be increased to meet market demand.

Total Investment
