Federal Communications Commission  
Office of the Secretary

FROM:  
Globe Wireless Radio Services Inc. (GWRS)  
Palm Bay, FL

Ref. Public Coast Station Application attached  
Waiver of rule CFR-47, Sub part J, 80.453 (5)

Rule 80.453 allows communications between Public Coast Stations on frequencies up to 5 MHz. This was an adequate provision historically when there were a multitude of coast stations both domestically and internationally. In order to ensure reliable inter-station communications for the far flung network of GWRS coast stations it is necessary to access to all duly licensed frequencies in all bands. The distances involved and the day/night, seasonal and sunspot cycle make this particularly important. During periods of propagation disruption, it is even more important.

Consequently, GWRS requests a waiver of rule 80.453 (5), Sub part J, CFR-47
