This debt collection company has accessed both our home phone and our cell phones and placed several harrasing phone calls for someone with our last name, but that we don't know. They refuse to accept that we don't know this person, and are yelling at us to have this person call them and threatening lawsuits. They used my name which is frightening. They refused to provide their address. Their name is Legal Resources. Their phone number is 1-888-482-3886. Their agent is David Ames, extension 727.
