

Existing 323 Data is Incomplete

Over 204 stations (15%) are missing from the 2009 full power television ownership data, calling into question whether the apparent increases in station ownership by Hispanic/Latinos and American Indian/Alaska Natives between 2009 and 2011 are real.

Filings were missing in all categories, with as many as 58.3% missing for LPTV in 2009.
