We have never used MCI for local or long distance. Our carrier includes those. But we got a bill for \$88 for 1 34 minute call from MCI. Of course, myname was misspelled and the address was our next door neighbor's address. On the internet it appears they bill alot of people for calls not made with them and noone has any recourse.... I have written MCI-Florida, contacted the Florida and California Attorneys General, and you. Something needs to be done. I have gotten a 2nd notice from them that the bill is overdue. My fear is this will go to collection and THOSE people don't care about the truth!
