Dear Chairman Wheeler, Attorney General Holder, and Chairwoman Ramirez,

I am writing you regarding reports that Comcast plans to expand its empire by acquiring Time Warner Cable for over \$40 billion. I have serious reservations about this proposed transaction, which would consolidate the largest and second largest cable providers in America. I urge you to act quickly and decisively to ensure that consumers are not exposed to increased cable prices and decreased quality of service as a result of this transaction.

Cable rates have risen significantly over the last two decades, and my constituents express frustration at being squeezed by unacceptably high cable bills every month. Many consumers would switch cable providers if only they had a viable option to do so. Unfortunately, a handful of cable providers dominate the market, leaving consumers with little choice but to pay high bills for often unsatisfactory service. I am concerned that Comcast's proposed acquisition of Time Warner would only make things worse for consumers.

The fact that Comcast already has acquired NBC Universal also increases my concern about the proposed expansion of Comcast's empire. As you know, I strongly opposed the Comcast-NBC Universal transaction because it gave Comcast too much control over television content, control Comcast could exert to raise prices, thus harming consumers and competitors. Comcast's proposed acquisition of Time Warner threatens to extend Comcast's domination of both the cable and content markets even further. And, to make

matters worse, all of this is taking place amidst ongoing questions as to Comcast's compliance with the terms and conditions set forth as part of the NBC Universal deal.

I urge you to take all appropriate actions in light of last night's reports that Comcast will attempt to acquire Time Warner, and I look forward to working closely with you on this issue. If you have any questions, please do not hesitate to contact me, or Joshua Riley on my staff at (202) 224-5641.

Sincerely,

THE CHAIRMAN

FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON

March 19, 2014

The Honorable Al Franken
United States Senate
309 Hart Senate Office Building
Washington, D.C. 20510

Dear Senator Franken:

Thank you for your letters regarding the reported purchase of Time Warner Cable Inc., by Comcast Corporation. I appreciate your providing me with your views on this matter.

The Commission has not yet received a formal proposal from the parties in this reported transaction. I assure you that when the transaction does come before the Commission, we will conduct an open and transparent evaluation of the issues raised and provide the public and other interested parties with a full opportunity to participate.

As you might be aware, the Commission generally is tasked with reviewing the proposed transfer of any FCC license and/or authorization to determine if such transfer is in the public interest. Our review is separate – and our standard of review distinct – from those of the Department of Justice and the Federal Trade Commission, but the Commission staff does work closely with our colleagues in those agencies, as necessary and appropriate.

Thank you again for providing me with your views.

Sincerely,
